NEW EMPTIES COLLECTION BY BOTTLEWORKS

Dear Owners and Residents,

Members of the Board of Directors are pleased to announce that it has entered into an agreement with BottleWorks, a sustainable social enterprise. This agreement does not cost the corporation anything. All residents need to do is bring their refundable alcohol containers to the recycling area in the garage and place them in the special bin provided by BottleWorks. The company will be collecting the bins on a regular basis.

Refundable alcohol containers that can be recycled include glass, plastic, aluminum, and tetra packs. Other containers with this material (i.e., non-alcohol containers) should be recycled in the grey bin.

What does BottleWorks do with the money they receive from recycling? All revenue goes toward paid rotation-based employment for young adults facing barriers to employment. Vocational skills development and social support are also funded through this program. The corporation will receive a charitable tax receipt at the end of the year for the value of its contributions.

We are excited about this opportunity and encourage residents to use it.

This program will be set up Wednesday, December 23, 2020 and will be available for use after that.

Thank you,

Dane Orioux
Agent for OCSCC 803
